

# How We Work With You

- **Initial Contact**

Our journey begins with an initial conversation. Here, we learn about your project ideas and needs, answer any questions, and explain how we can support you. This first step is all about understanding your vision and setting the foundation for a successful collaboration.

- **Project Kickoff Meeting**

In this meeting, we dive deeper into your goals and expectations. We discuss timelines, your vision for the space, and any design specifics. By the end of this meeting, we'll have a clear roadmap of the next steps to bring your project to life.

- **Preliminary Budget**

With an initial understanding of your goals, we develop a preliminary budget estimate. This budget provides a high-level view of potential costs, helping you make early decisions about your project scope.

- **Detailed Drawings**

While we don't create drawings ourselves, we collaborate closely with your chosen architects and work alongside you during the drawing process. We ensure that each detail aligns with your vision and offer guidance where needed.

- **Detailed Pricing**

Once detailed drawings are in place, we compile a comprehensive breakdown of project costs, including materials, labor, and timelines. This step provides a clear financial view, allowing for any necessary adjustments before moving forward.

- **Quote Presentation**

We present the finalized quote to ensure transparency and answer any questions you may have. We'll review each element to ensure you're confident in the project's scope and investment.

- **Build Process**

With everything in place, we begin the construction phase. Our team keeps you informed throughout the build, with regular updates and open communication so you know exactly what's happening on-site.

- **Handover**

Upon completion, we conduct a thorough walkthrough with you, ensuring everything meets our quality standards and your expectations. We also provide a project handover with key information for future maintenance, leaving you ready to enjoy your new space.
